Overall Comments

The Grade 7 and Grade 8 Gauss Contests are the first two in a series of mathematics contests created and administered by the Canadian Mathematics Competition. The 2005 offering of these Contests drew an enrollment of just over 87000, mainly from Canadian schools, but also including some international schools.

The summary of results found in these pages is complied from voluntarily submitted reporting forms. These results are based on returns representing just under half of the total of enrolled students, and so can be viewed as reasonably representative of the actual results.

It is with pleasure that I note that, while the median for the grade 7 contest slipped by a few points to 86.22, the median for the grade 8 contest jumped up 10 points to 98.77. Both results are very good, and we hope that future papers will continue to garner similar results.

For people who are familiar with past results, it is important that you notice that the intervals for reporting scores changed this year. Thus there really was not a significant decrease in the number of students in the top group, nor an increase in the bottom group, as compared to previous years.

As it has always been in the past, a primary goal in setting the contests is to provide a fun activity which also challenges students, and affords teachers with an opportunity to work with their students on a mathematical activity outside the normal classroom routine. We extend our thanks to those students and teachers who participated this year, and hope that you will all continue to be active in such activities.

On behalf of everyone involved with the CMC, I offer congratulations to all participants, and especially to those named in this report. I look forward to your names, and others, appearing in future lists of participants.

Barry Ferguson

Director, Canadian Mathematics Competition

Commentaires généraux

Les concours Gauss de 7^e et 8^e année (Sec. I et II) sont les deux premiers concours dune série de concours de mathématiques créées et administrées par le Concours canadien de mathématiques. En 2005, ces concours ont mené à une inscription dun peu plus de 87 000 étudiants, principalement décoles canadiennes mais incluant quelques écoles internationales.

Le sommaire des résultats, trouvé dans ces pages, est compilé de formulaires de rapport de résultats volontairement soumis. Ces résultats sont basés sur les retours représentant la moitié du total d'étudiants inscrits, et donc peut être vu comme représentant de façon raisonnable les résultats actuels.

C'est avec plaisir que je note que même si la moyenne pour le concours de 7^e année a glissé de quelques points à 86,22, la moyenne pour le concours de 8^e année a fait un saut de 10 points à 98,77. Les deux résultats sont très bons, et nous espérons que les concours futurs continueront à représenter des résultats similaires.

Pour les gens qui sont familiers avec les résultats passés, c'est important que vous remarquiez que les intervalles de résultats rapportés ont changé cette année. Ainsi, comparé aux années précédentes, il ny a pas vraiment de diminution significative dans le nombre d'étudiants dans le premier groupe, ni une augmentation dans le groupe inférieur.

Comme cela a toujours été dans le passé, le but primaire du concours est de donné une activité amusante mais, qui défie aussi les étudiants et permet aux enseignants de travailler avec leurs étudiants sur une activité mathématique hors de la routine de salle de classe. Nous offrons nos remerciements aux étudiants et aux enseignants qui ont participé cette année et nous espérons que vous continuerez à être actif dans de telles activités.

De la part de tout le monde impliqué dans le CCM, je félicite tous les participants, et surtout ceux nommé dans ce rapport. J'ai hâte de voir vos noms et ceux de d'autres, apparaître dans les listes futures de participants.

Barry Ferguson

Directeur, Concours canadien de mathématiques
